Dear Ed, Thanks for Krassner's "Dear James McCord..." In diluting insanity with the utterly irrelevant Krassner improves. There! I've been trying hard and at last I have been able to pay him a kind of complement...You do not identify the college whose Spring Spring Semester inc,udes in the Humanities "Political Conspiracy and Assassinations." It was with the letter in which you say of Mae, who is listed that "She has prophetic moments," what was said of Hitler with no less relevance and accuracy. That she is well-intentioned I know. That she has done no good and much harm I also know. Was the line, you had it in quotes, from her?"I am a professor now on conspiracies." Wasn't she always? We have such friends enemies are de trop. What we have lacked and have needed since Garrison came along is enemies. They did us some good and gave us some possibilities. Thanks, WH 2/26/74
